

PanTerra Networks is a unified cloud service provider, delivering its family of secure, ultra-reliable, future-proof solution for SMB and Mid-market enterprises. PanTerra includes **Streams**, a complete unified communications and collaboration service. PanTerra also includes **SmartBox**, the world's first communications-enabled file sync & share service. All PanTerra services can be self-managed by customers or authorized partners, or subscribed to as a fully-managed service with **Sentra-Cloud**. With PanTerra's unified cloud service solution, enterprises gain the highest levels of security, scalability, reliability, availability, quality of service, service level agreement and support available, while significantly lowering their total cost of operations and IT administration complexities.

Dealing with the complexities of a business communication network that must accommodate job-site accessibility and multiple devices is no easy task. Traditional voice solutions require multiple products, applications and services per location and remote users are still left with limitations. Add to that all the other communications that we use on a daily basis to maintain a comprehensive communications solution and the costs and headaches are compounded.

Enter PanTerra Networks where business communications to us is everything unified regardless of location, device or mobility including digital business voice, video, fax, email, contact, calendar, chat, instant message, presence, conferencing, webinars and desktop sharing from one interface.

With PanTerra, multiple office and mobile support is not a definition with physical demands or limitations; it is simply a configuration setting. Complete freedom to present your customers with your best representation, and route communications to employees to best suit your business needs.

**Web Conferencing at your fingertips.** Having crews at various locations requires that you be able to reach multiple parties at the same time. PanTerra gives you the conferencing tools you need, whenever you need it. No 12-digit passcodes are required – simply click the web conference link and

you're ready to conduct web conferences, telephone meetings and even video conferences ad hoc.

**Eliminate CAPEX Costs.** PanTerra services run in a reliable data center and are delivered to you "on-demand" through your existing data network without additional CAPEX costs. And with PanTerra, you not only get all the PBX services you need, but many more communications services you already depend on, like email, web meeting, desktop sharing, audio conferencing, secure IM messaging, just to name a few.

**Unify Communications.** At PanTerra Networks, we solve the communications dilemma by unifying all of your communications needs. PanTerra provides a complete one-stop-shop for all of the communication, collaboration, contact center and messaging services required to run your company.

- Connect all of your users through one, unified communications platform
- Collaborate with co-workers around the globe
- Consolidate your voice traffic, and manage your globally distributed telephony solution through one simple interface
