

PanTerra Networks is a unified cloud service provider, delivering its family of secure, ultra-reliable, future-proof solution for SMB and Mid-market enterprises. PanTerra includes **Streams**, a complete unified communications and collaboration service. PanTerra also includes **SmartBox**, the world's first communications-enabled file sync & share service. All PanTerra services can be self-managed by customers or authorized partners, or subscribed to as a fully-managed service with **Sentra-Cloud**. With PanTerra's unified cloud service solution, enterprises gain the highest levels of security, scalability, reliability, availability, quality of service, service level agreement and support available, while significantly lowering their total cost of operations and IT administration complexities.

When your production company needs to communicate a change in location to the talent you've just hired, how do you get the word out? With PanTerra, simply send a group instant message and, voila, everyone has the information delivered to their unified command center or mobile device. Never again wonder whether your message was received by all parties at the same time and with the same information. Need to start a video conference on the fly? Go to PanTerra and launch a ConnectMeSM HD video conference and invite whoever needs to be in the meeting – on- and off-net.
