

PanTerra Networks is a unified cloud service provider, delivering its family of secure, ultra-reliable, future-proof solution for SMB and Mid-market enterprises. PanTerra includes **Streams**, a complete unified communications and collaboration service. PanTerra also includes **SmartBox**, the world's first communications-enabled file sync & share service. All PanTerra services can be self-managed by customers or authorized partners, or subscribed to as a fully-managed service with **Sentra-Cloud**. With PanTerra's unified cloud service solution, enterprises gain the highest levels of security, scalability, reliability, availability, quality of service, service level agreement and support available, while significantly lowering their total cost of operations and IT administration complexities.

Balancing the needs of your business with the needs of your clientele can be challenging. How do you incorporate the two without spending a bundle on disjointed communications services and continue to offer exemplary hospitality services that make your staff and customers feel at home? The answer is – a Unified Cloud Services Solution, like PanTerra, that integrates file sharing, mobility, and communications that's easy to use and 99.999% reliability built-in.

A Complete Unified Communication Platform for the Whole Organization

- Service for all sites and communication types
- Calendaring system, file sharing and email to keep everyone accessible, on the same page and on schedule
- Group locations, teams and individuals together for phone, email, instant messaging and broadcast voicemails to increase productivity and accessibility across the whole organization
- Direct dial access numbers and automated attendant call distribution for the entire organization
- Video conferencing and web meetings on the fly so information with staff is at your fingertips
- Complete contact center and re-

mote agent and supervisor capabilities unifying front lines with operations for superior response and customer service

- Offer clientele the services they need when their office is across the globe – video conferencing, teleconferencing, file sharing, and more

Total Communication Cost Reduction and Improved Infrastructure

- Eliminates duplication, complexities and significantly reduces costs and administrative overhead
- SaaS delivery essentially eliminates on-site equipment, applications and maintenance; thereby reducing capitol expenses and maintenance costs
- Futureproof guarantee gives a foundation that eliminates obsolescence or scale forecasting
- Native multisite architecture allows businesses to dynamically change without any communication technology limitations

PanTerra gives the hospitality industry the communications tools they need to keep clients coming back.
