

PanTerra Networks is a unified cloud service provider, delivering its family of secure, ultra-reliable, future-proof solution for SMB and Mid-market enterprises. PanTerra includes **Streams**, a complete unified communications and collaboration service. PanTerra also includes **SmartBox**, the world's first communications-enabled file sync & share service. All PanTerra services can be self-managed by customers or authorized partners, or subscribed to as a fully-managed service with **Sentra-Cloud**. With PanTerra's unified cloud service solution, enterprises gain the highest levels of security, scalability, reliability, availability, quality of service, service level agreement and support available, while significantly lowering their total cost of operations and IT administration complexities.

PanTerra enables the real estate industry to communicate with clients and its support organizations (i.e., escrow, title, broker, etc.) on multiple levels and have access to valuable information in real-time. To remain competitive these transaction-oriented businesses must have field sales that are mobile while remaining connected, have instant access to important information from offices, staff and peers, and be able to quickly automate repetitive inquiries regarding valuable inventory.

**Provide the communication tools your staff and customers need.** Integrated and unified mix medium communications for phones, faxes, secure instant message, mobile text message, email, contacts, file sharing and calendaring from one SaaS vendor and connect people with clients in multiple ways.

**Automate Repetitive Inquiries.** Auto Attendant and virtual extensions are great tools for automating playback of repetitive requests on products, properties and loan programs. Clients can call and enter any information related to a home, loan or special promotion with our dial by name and be presented with specific informational messages on the relevant subject.

**Electronic Fax.** Use your computer

to send and receive faxes, view faxes on your cell phone or computer, receive faxes via email attachments and store for later review and printing.

**Get answers quickly with cell to desktop instant messaging.** Use our integrated presence and secure instant messenger with dynamic mobile cell phone text conversion to get the answers needed on the road and in the office.

**Keep staff informed with distribution lists.** Voicemail broadcast lists are a great tool to keep staff informed of new products and inventory. Quickly record a broadcast message and all staff will receive a voicemail in their personal voicemails to listen to at their leisure from cell phones, computers or office phones.

**The PanTerra Advantage.** Give staff the tools they need to provide top customer service, give field people accessibility to increase transactions, and take advantage of automation to increase revenue. With PanTerra, we deliver complete unified communications the way you can use is so you can focus servicing clients in ways they never imagined.
